

HAND TORQUE WRENCH

ADJUSTABLE CLICK-TYPE TORQUE WRENCHES

Clicking type TT and NorTorque series torque wrenches are designed to be durable and long in lifetime. Quick and light adjustment over the entire scale and an adjustment lock allows the user to easily set the wrench and prevent accidental adjustment. In engineering the range of tools, Norbar has paid close attention to accuracy (+/-3%) which exceeds the requirements set by ISO6789-1:2017 standard for torque wrenches. Each torque wrench is delivered with a traceable calibration certificate and a robust carry case.

- | Quick and light adjustment over the entire scale can quickly be achieved and with minimal effort in approximately ten complete turns
- | All models feature a lock to prevent accidental adjustment of the set torque
- | TTi20 and TTi50 have a change of direction with knob on top of ratchet, NorTorque 300 is reversible by push-through square drive
- | TTfth and NorTorqueFTH models have a female end
- | NorTorqueTH models have a 16mm spigot
- | Comfortable and durable handle guarantees safe grip of tool
