

TORQUE SCREWDRIVERS CLICK TYPE

Clicking type TTs series torque screwdrivers offer an accuracy that exceeds the requirements of ISO6789:2017. Screwdrivers available for range 0.3 – 6 Nm in both adjustable and production type versions. Furthermore, they are engineered to retain this accuracy over many thousands of tightened cycles.

- | Supplied with a 1/4" hexagon bit holder designed using a 4mm hexagon stem
- | Easy torque adjustment without the need of additional specialist tools
- | All tools feature a lock to prevent accidental adjustment of the set torque
- | Traceable calibration certificate supplied
- | Tool "clicks" when torque is achieved removing the possibility of 'overtightening'
- | Comfortable and durable handle
